## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set for in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/30/06 has been entered.

Claims 1-23 have been presented for examination in this application. In response to the last office action, claims 1,10 have been amended. As the result, claims 1-23 are now pending in this application.

Examiner acknowledged receiving the Applicant's petition and granted on September 16, 2005, granting a filing date of July 31, 2003. Therefore in the previous office action mailed July 20 2006, Office Action summary form (PTOL-326) should indicates that the Applicant's filling date is July 31, 2003.

Applicant's remarks/amendments filed 10/30/06 have been fully considered with the results as follows,

Claims 1-23 are allowed.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

The primary reasons for allowance of claims 1 and 10 in the instant application is the combination with the inclusion of the limitation of "...wherein when a hit occurs in the prefetch buffer and a total number of prefetches that have occurred since a previous miss in the

prefetches that have occurred in the prefetch buffer and a total number of prefetches that have occurs since a previous miss in the prefetch buffer has reached the first prefetch limit, a prefetch does not occur in response to the hit.”

The primary reasons for allowance of claim 15 in the instant application is the combination with the inclusion of the limitation of “..if the read request results in a hit, selectively performing a prefetch of a predetermined number of lines from the storage circuitry into the prefetch buffer based at least in part on a prefetch counter reaching a first value; and if the read request results in a miss, performing a demand fetch in response to the read request and setting the prefetch counter to a second value.”

The remaining claims, not specifically mentioned, are allowed for the same rationale as their base claims.

### *Conclusion*

When responding to the office action, Applicant is advised to provide the examiner with the line numbers and page numbers in the application and/or references cited to assist examiner to locate the appropriate paragraphs.
